KEMALPASA MARBLE

NATURAL STONE FROM TÜRKİYE

KPM MARBLE
COMPANY CATALOGUE

KPM | KEMALPAŞA MARBLE

KPM MARBLE | CORPORATE PROFILE

KPM Marble is a Türkiye-based natural stone company combining its own quarry resources with stone selection and international sourcing.

VISION, MISSION & EXPERIENCE

Our vision is to connect Turkish natural stone with architecture worldwide. Our mission is to offer suitable materials through transparent communication and reliable partnerships. Our accumulated expertise combines vein orientation, block character and application requirements.

PEOPLE & WORKING APPROACH

On-site coordination, shared experience and close communication with partners shape our working approach.

OUR QUARRIES

Essential Grey, Bursa Dark Beige and New Empire Beige belong to our own quarry portfolio. The quarry is where natural character and production possibilities begin.

ESSENTIAL GREY | QUARRY

The distinctive grey tones and veining of Essential Grey originate in its natural quarry environment.

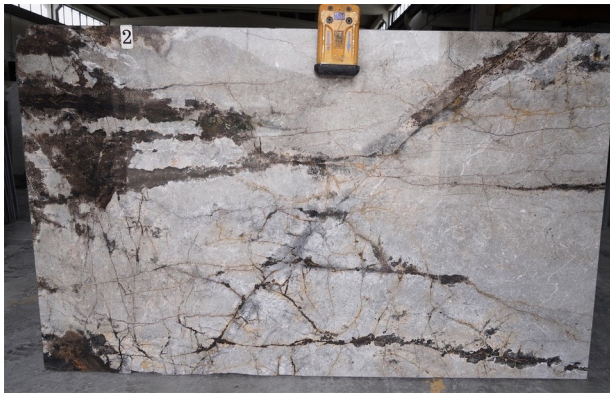

ESSENTIAL GREY | RAW BLOCKS

Vein direction, natural variation and block dimensions guide subsequent material selection.

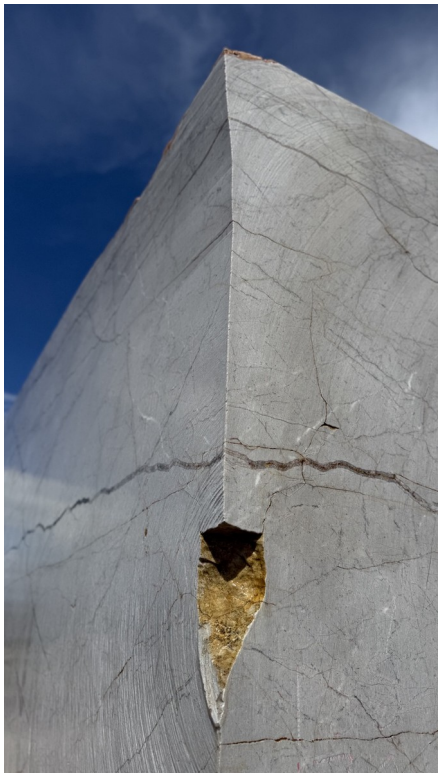

BLOCK SELECTION & HANDLING

Careful selection and handling are essential throughout quarry and block logistics.

ESSENTIAL GREY | SLABS

Cut slabs reveal natural vein continuity, surface depth and architectural potential.

ESSENTIAL GREY | VEIN CHARACTER

Every slab is assessed for its distinctive natural veining and character.

ESSENTIAL GREY | SURFACE DETAILS

Close examination of stone surfaces informs selection and cutting decisions.

OTHER STONES FROM OUR QUARRIES

Bursa Dark Beige and New Empire Beige complement our own quarry portfolio.

SLAB SOURCING & SALES

Alongside our quarry products, we source slabs with diverse tones and veining from independent producers across Türkiye.

WHITE & LIGHT-TONED SLABS

White and light-toned slabs are among the other stones sourced to meet project requirements.

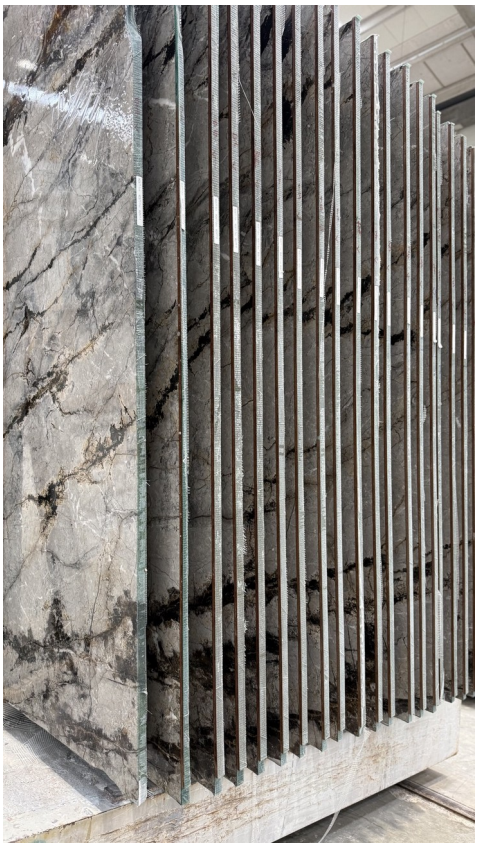

SLAB INVENTORY

Slabs of different dimensions and surface characteristics are assessed against architectural needs.

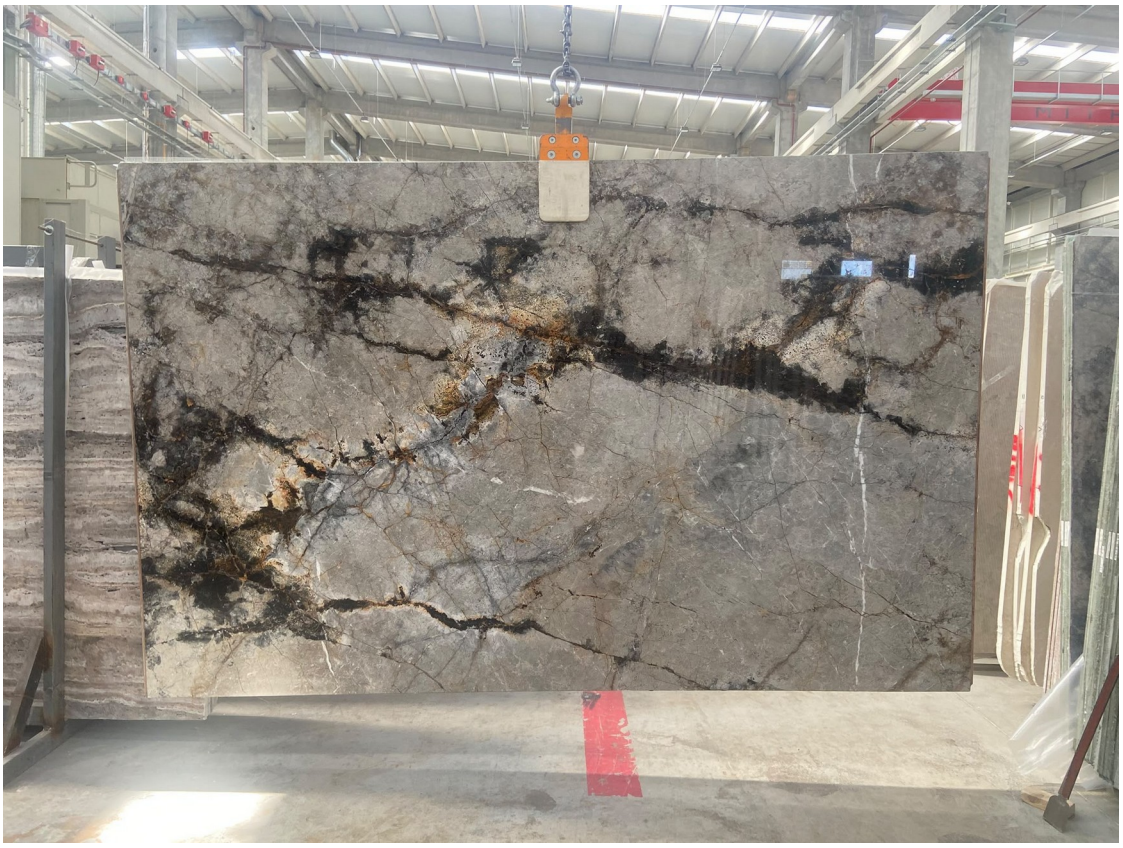

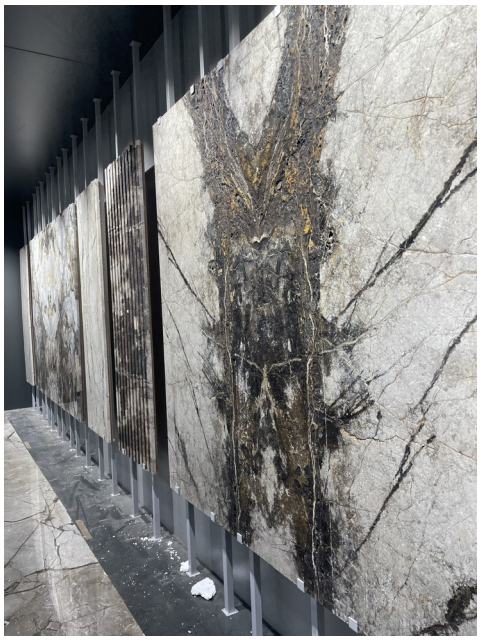

SLABS & BOOKMATCH

Natural vein orientation can create expressive architectural compositions through matched slabs.

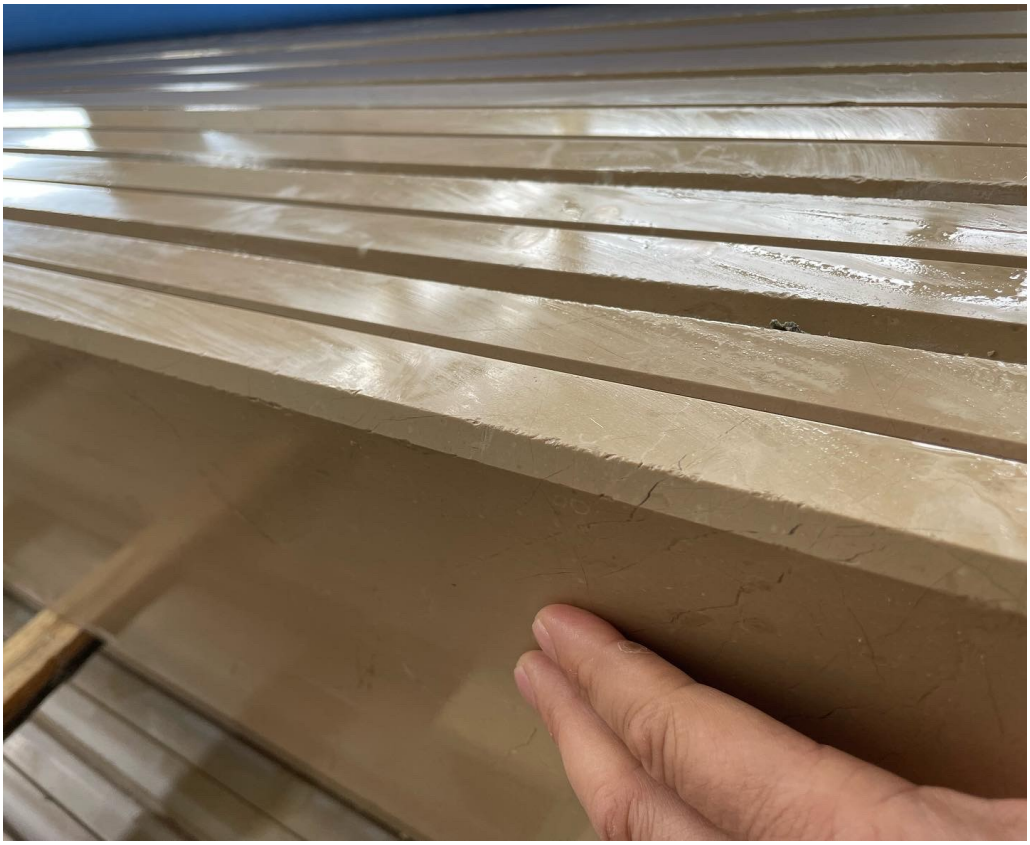

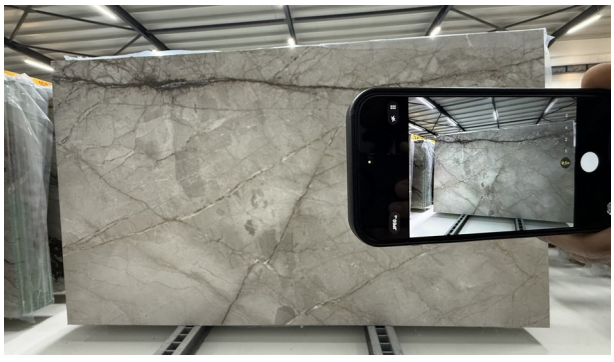

SLAB SELECTION & PROCESSING

Cutting, finishes, edge details and dispatch preparation depend on the intended use.

PRODUCTION & MATERIAL PREPARATION

Natural stone selection and preparation require technical care at each stage.

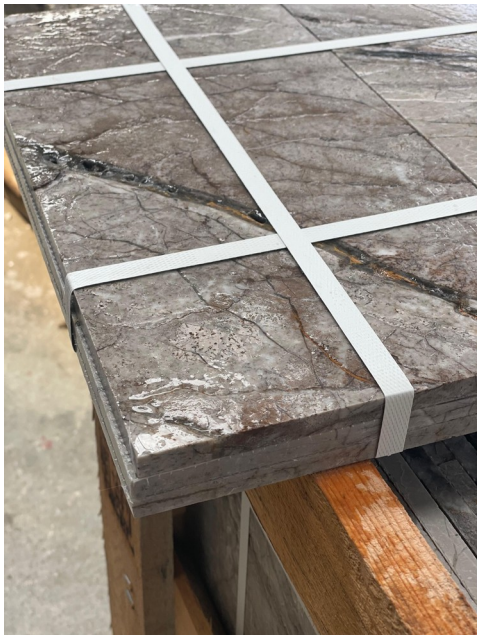

NATURAL STONE DETAILS

Natural stone offers versatile uses, from smaller objects to bespoke surfaces.

ARCHITECTURAL APPLICATIONS

Natural stone lends lasting character to walls, floors and interiors. The images illustrate applications and are not all represented as projects executed by KPM.

ARCHITECTURAL APPLICATIONS | INTERIORS

Different stone colors and surface textures create cohesive interior environments.

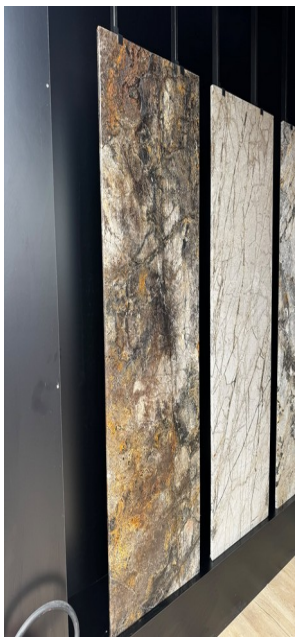

ARCHITECTURAL APPLICATIONS | BESPOKE DESIGN

Bespoke tables, walls and decorative surfaces demonstrate the design potential of stone.

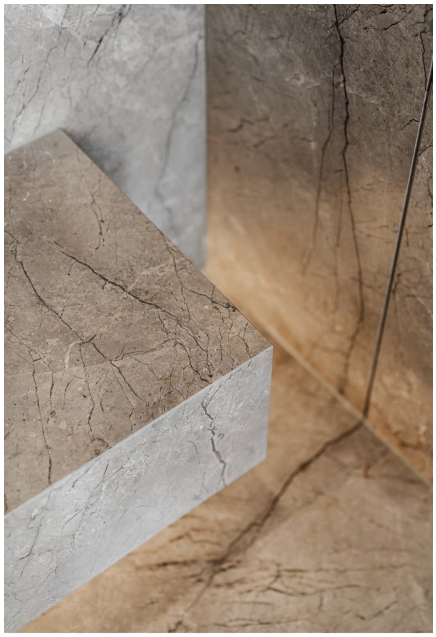

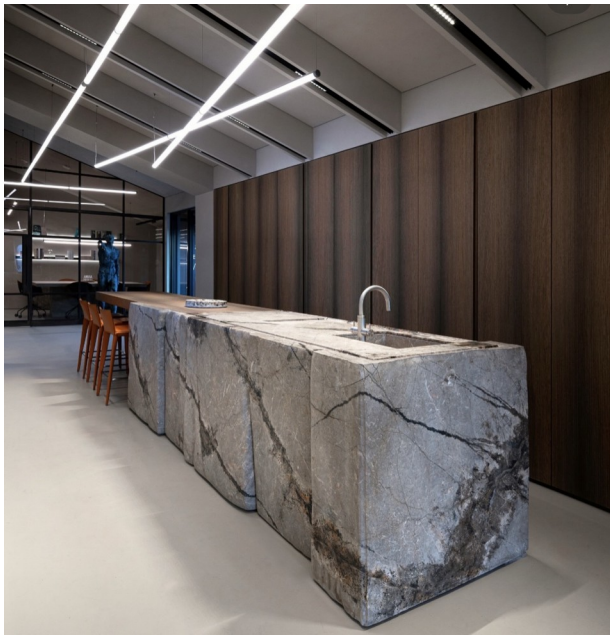

ARCHITECTURAL DETAILS

Stone texture interacts with light and space in distinctive ways.

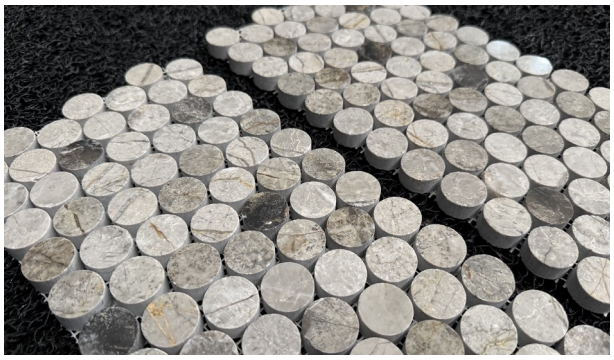

TILES & MOSAICS

Geometric shapes and varied patterns enrich decorative applications of natural stone.

MOSAIC COLLECTION

Octagonal, rounded and linear arrangements offer diverse surface options.

TILE & SURFACE OPTIONS

Natural stone tiles and surface arrangements can adapt to different design scales.

INTERNATIONAL SOURCING

Our quarry resources are complemented by sourcing relationships with independent producers across Türkiye.
